Source: B.F. Ascher and Company, Kansas City, Missouri.

Veterinary

Wyeth Laboratories recently advertised a new antibiotic treatment for chicken air-sac infections, 'Bicillin-SM', a combination of Bicillin and dihydrostreptomycin.

Correction

'Cilloral' Suspension is produced by Bristol Laboratories. The source was omitted in last months' report.

The product called "Erythrocin tablets" in last months' report should be Erythromycin tablets. This product is made by The Upjohn Company while Erythrocin is the brand name for Abbott's erythromycin products.
